e supervisors recommended by the Democratic Committee have been ap-ed. Richmond is all right in this reasked for supervisors for nearly all the precinets in this State. They will be appointed, and the law requires that for each
present where supervisors are petitioned

the Republicans. The Republican lists are
or soon will be in, while by the neglect
of Democratic committees it is likely that
Mr. M. F. Pleasants, the chief supervisor,
will be forced to make our appointments
from the old lists, upon which are names
of men dead, or removed, or perhaps not
now in sympathy with us. If our county
committees want good representative supervisors they must send in the lists at
one to Mr. Pleasants. He stands ready
to give us the men we recommend.

In the Heart of Midlothian.

The Democrats of Midlothian, Chesterfield sounty, had a meeting yesterday.
Colonel W. S. Gliman made them an excellent speech—discussing the issues of the day pithly and brightening his solid argument with racy aucedotes. Hon, George D. Wise rendered an account of his stewardship, and powerfully attacked and slearly exposed the wrong-doings of the Republican party.

All of our meetings in Chesterfield have been well attended. This good old county is leyal to the cause.

Temperance.

The ladies of the Woman's Christian Temperance Union of this city are making preparations for their annual meeting, to be held some time early next month. The local union meets to-morrow (Monday) morning at 10:30 o'clock in the pariors of the Young Men's Christian Association, and will have the matter before them.

There are more broken sidewalts to be seen in Richmond at this time than for years before. Some of them are on Broad street. At one time the city authorities were sunzingly particular about sidewalks; now but little attention is given them. The change in this respect is not an improvement.

Manchester Notes.

There was considerable excitement on the streets here yesterday morning over the appearance of fire in the northwest corner of the city. It was an out-house or shed on the lot adjoining the steam brisk-yard, corner of Seventa and Semmes streets. The wind was high and the building very dry, and it was soon consumed. The fire was caused by sparks from the stationary engine. Damage slight.

Mozart-Hall Association.

At the regular Mozart-Hall soirée next Thursday evening the Meigs sisters, a vocal quartetie, will be one of the attractions. These young ladies were born in New York. They are the grandchildren of the Rev. Benjamin C. Meigs, who salled from Boston as a missionary to India in 1813. Great care was taken with their musical education, and they studied under one of the best masters in the metropolis. They posses rich and sympathetic voices, and their execution shows the care and judgment that has been exercised in their instruction. They create the most unbounded enthusiasm whenever they perform in public, and never fall to create a desire to hear them again.

So far the operations of the railroads running out of Richmond have been but little interfered with by the drought. They can still get enough water for the locomo-tives. Either the railroads are much better prepared in this respect, or the drought is much less severe than that of 1881, for in 1881 some of our lines were seriously trou-bled.

opinion existing among medical men as to the wisdom or propriety of employing alcoholic stimulants in disease can never be harmonized by any argument in favor of a particular brand of liquor, however true or intrinsically valuable, notwithstanding that much of this divergence of thought may be traced originally to the pernicious effects of the worthless material labeled and sold as 'pure wines and liquors.' All are agreed, however, that whenever atimulants are employed, whether indicated or not, they should be of a character unquestioned by experience in the sick-room, or by the most delicate manipulations of the chemist's laboratory. An experience of more than twenty years in the drug and legitimate apothecary business has given us a wide range of acquaintance with the wants of the profession and requirements of the sick in the direction of stimulants. Among the many articles of liquor dispensed at our establishment during these years for medicinal use, we can say confidently that none have approached the celebrated Dutty's Mait Whiskey in freedom from fusel oil and other noxious materials, in smoothness of taste, roundness and delicacy of flavor; making it alike acceptable to all ages and to the most delicate stomachs. In typhoid-fever, dysentery, diarrhoz, and all low forms of disease, the medical profession will find this article of whiskey in valuable as a stimulant and tonic, without any of the bad effects usually following the taking of spirits less refined.

To the Editor of the Dispatch:

Won't you please call the attention of the proper authorities to the great trouble and amoyance that the ditch and embankment in front of our doors is giving the merchants and citizens of this portion of the city? This embankment—about ten feet high in front of our doors—has been here for a dray or country wagon to receive goods from or deliver goods to us. This great nuisance extends from First street to Monroe street on Broad, impairing the business of several hundred merchants. The ditch is dug, the pipe is in the street, but the hands must be on a holiday, as scarcely any work has been done here for a week.
